14 Tips & Troubleshooting

1. Introduction — What This Portal Does

A plain-language overview before you begin.

The **UAE Portal** is Ugenya Association Eldoret's online system for member records. It replaces having to ask your branch administrator to check a paper ledger — instead, you can look up your own savings and welfare records yourself, any time, from your phone or computer.

Every member is given a unique **Member ID** when they join. Using it, you can log in and see your own records — and only your own. You cannot see any other member's information, and no one else can see yours.

With your member account, you can:

- View your monthly savings history and your current running balance.
- View your emergency fund history, contributions, and any withdrawals.
- Download a PDF "passbook" of your full contribution history.
- Read announcements posted by the association or your branch.
- Download a blank collection sheet for your branch.
- Read the association's By-Laws and Constitution.
- Change your own password at any time.

YOUR DATA IS PRIVATE

Administrators enter your figures on your behalf each month, but only you can see your own dashboard and passbook. No other member can view your records.

2. Getting Started

What you need before your first login.

2.1 What you need

- A smartphone, tablet, or computer with a web browser (Chrome, Safari, Edge, or Firefox all work well).
- An active internet connection (mobile data or Wi-Fi).
- Your **Member ID** — given to you by your branch administration when you joined, or when your details were entered into the portal.
- Your **phone number** exactly as it is registered with the association — this is your password the very first time you log in.

DON'T HAVE YOUR MEMBER ID YET?

Ask your branch chairman or the association's administration. They will confirm your Member ID and the phone number on file for you.

2.2 Finding the site

- 1 Open a web browser on your phone or computer.
- 2 Type the following address into the address bar at the top of the browser:
ugenyassociationeldoret.com
- 3 Press Enter (or Go). The UAE homepage will load.

TIP

Save this address as a bookmark, or add the site to your phone's home screen (see Section 3), so you don't have to type it every time.

2.3 A quick look at the homepage

Before logging in, the homepage shows information anyone can see: what the association offers (Monthly Savings, Emergency Fund, Welfare & Accountability), an "About UAE" section, the list of all 12 branches, a short "Your Records, Online" explainer with three simple steps

(receive your Member ID, log in securely, track your records), and the membership section with a downloadable application form for new members.

3. Installing the Portal as an App (Optional)

A faster way to open the portal — no browser address bar needed.

The UAE Portal can be installed like a regular app on your phone or computer, even though it lives on the web. Once installed, it opens in its own window with its own icon, just like WhatsApp or any other app, and starts faster.

3.1 If you see an "Install App" button

On the homepage or your dashboard, you may see an **Install App** button near the top of the page. If you see it:

- 1 Tap or click **Install App**.
- 2 Your browser will show a confirmation prompt — confirm to install.
- 3 A "UAE Portal" icon will appear on your home screen or desktop. Use it to open the portal directly from now on.

3.2 If you don't see that button

Some browsers (notably Safari on iPhone/iPad) don't show this button automatically, but you can still add the portal to your home screen manually:

- **iPhone/iPad (Safari):** open the site, tap the Share icon (a square with an arrow pointing up), then choose "Add to Home Screen".
- **Android (Chrome):** open the site, tap the three-dot menu in the top right, then choose "Install app" or "Add to Home screen".
- **Computer (Chrome/Edge):** open the site, look for an install icon at the right edge of the address bar, or use the browser's menu and choose "Install UAE Portal".

NOTE

Installing is entirely optional. Everything in this guide works exactly the same whether you use the installed app or simply open the address in your browser.

4. Logging In for the First Time

As a member, you first select your branch, then sign in.

4.1 Step-by-step

- 1 Go to ugenyassociationeldoret.com and click **Login** (top right of the homepage, or in the "Your Records, Online" section).
- 2 On the sign-in screen, look near the bottom for the link [Are you a member? Select your branch to log in](#), and click it. (If your administrator already sent you a direct link for your branch, you can skip straight to step 4.)
- 3 On the **Select Your Branch** page, find and click your branch's card from the list of all 12 branches.
- 4 You'll be returned to the sign-in screen, now showing a blue banner: *"Logging in to: [Your Branch Name]"*, confirming the branch is correct.
- 5 In the **Member ID or Email** box, type your Member ID (for example, a code such as **UGY-ABC-0001**).
- 6 In the **Password** box, type your **phone number exactly as registered** with the association — this is your password the first time only. Tap the eye icon to check what you've typed.
- 7 Click **Login**.

4.2 Messages you might see

MESSAGE	WHAT IT MEANS
"Branch not recognized - please go back and select your branch"	The branch link you used isn't valid. Go back to Select Your Branch and choose your branch from the list again.
"This Member ID belongs to a different branch. Please go back and select your correct branch."	You selected the wrong branch for your Member ID. Go back and pick your actual branch.
"Too many login attempts. Please try again in 15 minutes."	

For security, repeated failed attempts are temporarily blocked. Wait 15 minutes, and double check your Member ID and phone number.

TERMS & PRIVACY

A link to the Terms & Privacy Policy is shown just below the login button. It's worth reading once, as it explains how your data is handled.

5. Setting Your New Password

Required the very first time you log in.

The first time you successfully log in with your phone number as your password, the portal will automatically take you to a **Change Password** screen before letting you into your dashboard. This is a one-time security step to make sure only you know your password going forward.

- 1 In **New Password**, choose a password only you know. Avoid using your phone number or Member ID again.
- 2 Re-type the same password in **Confirm Password**.
- 3 Click **Save new password**.

You'll then be taken straight to your Member Dashboard. From now on, log in using this new password instead of your phone number.

CHOOSE A PASSWORD YOU'LL REMEMBER

There is no "forgot password" link on the sign-in screen. If you forget your new password later, you will need to ask your branch administration for help (see Section 14).

6. Your Member Dashboard

Your home screen after logging in.

6.1 The top bar and menu

At the top of every screen (once logged in) you'll see a dark navy bar with a **menu icon** (three lines) on the left and a round **initials badge** on the right — either one opens the navigation menu, a panel that slides in from the left, showing:

Dashboard

Passbook

Announcements

By-Laws

Constitution

Settings

with a **Logout** button at the bottom, under the label "MEMBERS PORTAL". If you have unread announcements, a small gold badge with a number appears next to "Announcements". Tap anywhere outside the menu, or the X in its corner, to close it.

6.2 What's on your dashboard

Your dashboard greets you by name, and shows your **branch** and your **Member ID** just below. Three buttons let you jump straight to common tasks: **Download Blank Sheet**, **Passbook**, and **Announcements** (with its unread badge, if any).

Summary cards

CARD	WHAT IT SHOWS
Total Contributions to Date	The sum of all your monthly savings contributions recorded so far.
Current Balance	Your latest running savings balance (from your most recent monthly entry).
Total Funeral Contributions	The sum of all funeral/emergency-event contributions recorded under your name.

Recent Contributions

A table lists your five most recent months of savings contributions (Month and Subs amount), for a quick glance without opening your full passbook.

7. Your Passbook

Your complete contribution history, in one place.

Menu → **Passbook** (or the *Passbook* button on your dashboard)

Your passbook is split into two tables: a **Savings Passbook** and an **Emergency Fund Passbook**, each showing one row per month.

7.1 Filtering by date

- 1 Set **From Month** and/or **To Month** to the range you want to see (leave either blank to include all months on that side).
- 2 Click **Apply Filter**.

7.2 Savings Passbook columns

COLUMN	MEANING
Month	The month this row covers.
Old Savings B/F	Historical closing balance carried in from before the portal existed (a one-time figure).
Previous Balance B/F	Balance carried forward from the previous month.
Subs	Your savings contribution for that month.
Cumulative Saving	Your total running savings balance as of that month.

7.3 Emergency Fund Passbook columns

COLUMN	MEANING
Month	The month this row covers.
Previous Emerg B/F	Emergency fund balance carried forward from the previous month.
Emerg Subs	Your emergency fund contribution for that month.
Withdrawal	Any amount withdrawn from your emergency fund that month.

Emergency Balance	Your running emergency fund balance as of that month.
-------------------	---

7.4 Downloading a PDF copy

Click [Download PDF](#) to save a PDF copy of your passbook for the currently selected date range — useful for printing or keeping your own record.

8. Announcements

Messages posted by the association or your branch.

Menu → **Announcements**

Announcements you have not yet opened are highlighted with a gold border and marked "Unread"; ones you've already viewed appear in plain white and are marked "Read". Each shows its title, the date it was posted, and the full message.

- 1 Read the announcement.
- 2 If it's unread, click **Mark as Read** to clear it (this also reduces the number shown on the Announcements badge in the menu).

9. Downloading a Blank Collection Sheet

A printable paper sheet for your branch.

From your dashboard, click [Download Blank Sheet](#) to get a PDF listing every active member of your branch, in their sheet order, with empty columns. This is the same sheet your branch uses on paper during collection meetings, before an administrator later enters the figures into the portal.

10. By-Laws

A read-only reference document.

Menu → **By-Laws**

Opens the association's numbered By-Laws for reference, written in the association's own language as adopted by the branches. This is a read-only page — there is nothing to fill in here.

11. Constitution

A read-only reference document.

Menu → **Constitution**

Opens the association's constitution for reference. This is a read-only page — there is nothing to fill in here.

12. Account Settings & Logging Out

Keeping your own login secure.

12.1 Changing your password

Menu → **Settings**

You can change your password again at any time (not just on first login):

- 1 Enter your **Current Password** .
- 2 Enter a **New Password** .
- 3 Re-enter it in **Confirm New Password** .
- 4 Click **Update password** .

You'll see a confirmation message once your password has been updated.

12.2 Logging out

Open the navigation menu and click **Logout** at the bottom. Do this whenever you finish using a shared or public computer or phone.

13. Working Offline

What still works without a signal, and what doesn't.

If your connection drops, you'll see an amber banner reading *"You're offline. Reconnect to the internet to save changes."* You can still browse pages you've already opened, such as your dashboard or passbook, but anything that saves changes (like updating your password) will be disabled until your connection returns. As a member you mostly view your own records, so this rarely affects you — simply reconnect if you need to change a setting.

14. Tips & Troubleshooting

14.1 Good practice

- Keep your Member ID somewhere safe and easy to find — you'll need it every time you log in.
- Never share your password with anyone, even a fellow member.
- If your phone number changes, tell your branch administration so your records (and any future password resets) stay accurate.
- Check Announcements regularly for important updates from the association.

14.2 Troubleshooting

PROBLEM	WHAT TO TRY
Forgotten your password	There is no self-service reset in the portal. Contact your branch administration to have it reset for you.
"This Member ID belongs to a different branch"	Go back to Select Your Branch and choose your actual branch, not a different one.
Your balance looks wrong	Contact your branch administration — they enter the monthly figures and can check the sheet for that month.
A page looks empty or stuck loading	Check your internet connection, then refresh the page.
Can't see the Install App button	Some browsers don't show it automatically — see Section 3.2 for how to add the portal to your home screen manually.
